

Agent of Change: Chicago-Style Annotated Citations

AGENT OF CHANGE: _____

*For completing your biosketch sheet, you will be collecting at least **FIVE** various sources to discover key information about your AGENT OF CHANGE.*

ONE source must be an “.edu”,

TWO Sources must be “.org”

TWO Sources can be any domain

FINAL PRODUCT: needs to be a typed Chicago style annotated bibliography with *annotations*. **(GO TO: <http://www.citationmachine.net/chicago/cite-a-journal>) OR make your own using this format:**
Author or owner of site Last name first. "Title of Document." Name of Site. URL (date accessed)

Annotations: Identify if the source is either primary or secondary. Answer and discuss if the collected source is credible, supported, biased, stereotyping, or features misrepresentation. Lastly, summarize or discuss what information relating to your topic was discovered through this source = what information you used from that source for completing your biosketch sheet.

Preparation for credibility annotations. . . . For each of your sources attempt to accomplish a-d below and make notes here:

- a. Identify if these sources are primary or secondary sources or a combination of the two

- 1
- 2
- 3
- 4
- 5

- b. Identify years of publication / last time the website was updated

- 1
- 2
- 3
- 4
- 5

- c. Identify the authors or the owners of the site, and learn something about each one ... are they credible? How do you know?

- 1
- 2
- 3
- 4
- 5

- d. Use your Web Source Evaluation Checklist sheet to check your sources for intent, intended audience, and reliability. Make notes here of your evaluations for these three points

- 1.
- 2.
- 3.
- 4.
- 5.

What evidence of bias or stereotyping do you see in the works of these authors? This may include simply omitting information.

What points of information do your sources disagree on? What conclusions can you draw from these disagreements?

Annotate and save your typed bibliography. **Annotations:** Identify if the source is either primary or secondary. Answer and discuss if the collected source is credible, supported, biased, stereotyping, or features misrepresentation. Lastly, summarize or discuss what information relating to your topic was discovered through this source = what information you used from that source for completing your biosketch sheet.
