

# Willamette Primary School

## Open Permission for Walking Field Trips

Dear Parents,

It is common for teachers to use our Willamette neighborhood and nearby Willamette Park as a natural extension of the learning that occurs in the classroom. Opportunities for work in the areas of science, art, history and community service learning exist right outside our doors!

Your signature on this form gives your approval for your child to participate in learning activities within walking distance of Willamette Primary School as they occur throughout the school year.

You will be notified prior to each trip. The same high standards of student behavior for regular field trips will apply for your walking trips.
