Budget Message

I. Budget Message

Dear West Linn-Wilsonville School District Budget Committee Members and Patrons:

In accordance with ORS 294.391, I am submitting to you the West Linn-Wilsonville School District proposed 2013-2014 budget.

Investing in a Vision of Excellence

I present this budget to you for your consideration as an opportunity to renew our commitment to and investment in a vision of excellence in education for the children in West Linn-Wilsonville Schools. We believe this budget and our investment strategies support the District vision, values, and Board goals as well as demonstrating alignment to Oregon's 40-40-20 goals. Ultimately this budget supports an investment in opportunity for each child, every child to find their personal greatness.

I bring this budget message to you with optimism and evidence that the **gap between** our ability to maintain high levels of excellence and our revenues still exists, but is narrowing. Economic forecasts have improved and Legislators have demonstrated a commitment to creating more adequate and stable funding for schools. We hope these trends will allow us to maintain our investment in the excellence in education and opportunity our students deserve.

West Linn-Wilsonville Investments in Excellence

Our district has consistently invested in a rich and diverse range of opportunity for students. Our theory of action is that these strategies work together to achieve the outstanding student performances we enjoy. The interdependency of our efforts and the level of diversity provided creates an equity of access and opportunity that is a profound strength of this district. Our key investment strategies include:

- Quality staffing and high quality professional development
- Establishing effective class sizes and classroom support
- Offering full day Kindergarten and Pre-K Programs
- Offering a full instructional school year
- Developing strategies and programs to support students with diverse instructional needs
- Offering programs and measures to develop college and career readiness
- Enhancing access to diverse Advanced Placement Courses
- Providing rich and comprehensive programming in:
 - Music, Drama, and Visual Arts
 - World Languages
 - Wellness, Athletics, and Activities

- Enhancing our STEM Programs (Featuring intensive research and skill development in, Science, Technology, Engineering, and Mathematics)
- Further enhancing our rich and robust use of technology
- Enhancing and maintaining our safe and outstanding facilities, grounds, libraries and learning spaces

A Process for Investing in Excellence

This year the resourcefulness of our staff and our supportive school community has allowed us to operate at high levels of teaching, learning, and opportunity for students while staying within the parameters of our 2012-2013 budget. This has been no small task considering that we've opened two new schools this year while operating with decreases in state and local revenues. We have been disciplined in our focus on high-leverage investment strategies and continuing in this regard will be the key to enacting a successful plan for the next biennium.

In developing the budget for 2013-2014 we began with the evaluation, analysis, and monitoring of the 2012-2013 budget. Preparation began in December as state funding scenarios were discussed, new budget committee members were selected, and the governor and legislators began to consider the funding future in Oregon. In later winter and throughout the spring, budget information was shared with district staff, with school staff, and with community members. Effective class size, powerful instructional technology, high leverage instructional strategies, enriched curriculum offerings, fair wages and benefits for personnel, and maintaining the investments in our safe, efficient, and well-designed facilities and grounds continue to emerge as priorities.

The Development of Achievement Compacts by our Achievement Compact Advisory Committee has added to our process this year. Districts have been asked by the Oregon Education Investment Board to develop Achievement Compacts that align a set of district learning targets and strategies to state learning outcomes for college and career readiness. The Board-appointed Achievement Compact Advisory Committee collaborated during the course of this year to establish and communicate achievement targets and strategies. Key Communicator groups were consulted and feedback was collected to help review needs, anticipate questions, and affirm investment strategies. This proposed budget serves to "budget our plan" for achieving those targets. We are proud to say that we have always believed in preparing students to the highest levels of learning possible and have created pathways for all students to develop the knowledge, skills, and dispositions to prepare them...for the world.

Investing in 2013-2014 and Beyond

For 2013-14 we are submitting a balanced general fund budget of \$73,913,567 approximately 7% higher than the \$68,636,982 budget for 2012-2013. In 2013-2014 we move into the first year of a new two-year state budget cycle. We are projecting to be funded in the State School Fund at a \$6.55 billion level and with the PERS relief generated by SB 822 we are able to base our budget on the equivalent of \$6.75 billion dollars in state support. The increase in state revenue was anticipated in our message of "cautious optimism" last year. We knew this level of funding would be necessary to maintain our current level of service while compensating for the nearly \$5.7 million of one time funding used to balance the current budget and to finance anticipated increases in personnel costs of another \$4 million dollars. Staff continues to work thoughtfully and tirelessly to generate staffing and program plans for all schools that are within resources available and provide for the excellence our children deserve. We have also considered the future beyond 2013-2014 and how the "winding down" of our bond may effect our investment decisions. All this contributes to the fact that there have been more variables at play in crafting the 2013-2014 budget than in 2012-2013.

In developing a balanced budget for the 2013-2014 school year we have made the following assumptions.

Staffing and Programs

- We will not reduce instructional days for students.
- We will not eliminate programs.
- We will not reduce staff.

Revenue

- The combination of State School Fund (\$6.55 billion) and PERS relief will provide the equivalent of \$6.75 billion on which to budget a plan.
- We will receive approximately \$300,000 less in local option than last year.
- To a lesser extent than in 2012-2013, capital accounts and projects will offset potential general fund expenditures through 2014.
- Enrollment is projected to increase by approximately 50 students.
- We will invest approximately \$3.2 million of our 2012-2013 ending fund balance.

Expenses

- We will need to compensate for nearly \$5.7 million in one-time funding used to support our investments in 2012-2013.
- Wage and benefit costs will increase by approximately \$4 million dollars.
- PERS expenses increase by approximately \$800,000 (after accounting for relief provided by SB 822).

- New school costs for utilities, supplies, and repairs will be assumed by the general fund.
- We will continue to develop efficiencies in staffing and in our use of materials, supplies, and purchased services.

While we are optimistic, we continue to have our work cut out for us. In this year's legislative session, state leaders and education advocates are working hard to develop state investment strategies that will provide adequate and stable funding to support an aligned and accountable P-20 vision for education. This vision aspires to prepare every Oregon student for a productive life, ensuring by 2025, 100 percent of Oregon students graduate from high school with 40 percent attaining a four-year degree and another 40 percent a two-year degree.

We appreciate that Oregonians are taking steps toward closing education funding gaps so that schools can take advantage of the great potential they hold for closing the opportunity gaps that exist between what every student deserves and what they are asked to make do with, regardless of the school they attend.

I believe that Oregon has the capacity and is increasingly demonstrating the will to make this hope a reality. We clearly have more to do as the current resource allocation barely allows us to maintain our work and will still result in cuts to staff, school days, and programs for many districts throughout the state.

As a district we will continue to find creative ways to increase efficiency and effectiveness. We will continue to monitor and evaluate District expenditures and look for opportunities to maximize our resources throughout the coming year. Sincerest thanks goes to everyone who has participated in this budget process by attending meetings, staying informed, providing feedback, sharing suggestions, and in offering your assistance to navigate the waters ahead. Your collaboration and ongoing support is very much appreciated.

Respectfully submitted,

Budget Analysis

II. Budget Analysis

West Linn-Wilsonville School District: Who We Are

The West Linn - Wilsonville School District is nestled within two thriving cities, West Linn and Wilsonville, within the rural area of Clackamas County. Both communities have a strong legacy of support for their schools, music and arts endeavors and the overall wellbeing of their patrons. The school district and surrounding communities have experienced steady, constant growth over the past three decades. The estimated student population of the District as of June 30, 2012 was 8,175 a sizeable increase to 3,277 in fiscal year 1980.

As both communities have grown over the years, the District has been able to continue a remarkably strong offering of academic courses and extra-curricular activities while remaining centered and focused on its' mission and board goals.

With the opening of Lowrie and Trillium Primary Schools the School District includes nine primary schools, three middle schools, three high schools and one charter school. Award-winning teachers and a strong commitment to quality teaching and learning have resulted in "Outstanding" ratings for each primary school, Advanced Placement (AP) Honor Roll for both high schools including 29 AP classes, and student-earned awards and scholarships in Music, Visual Arts, Science, and Robotics.

The daily work and joy of teaching and learning is held together by core beliefs penned years ago by community patrons, parents, staff and students. They are described as the Vision Themes and reflect the core values of the district: These values are:

- Educating the Whole Child
- Providing a Circle of Support
- Pursuing Personal and Academic Excellence
- Developing Community Partnerships
- Personalizing Educational Programs
- Integrating Technologies into Daily Learning

The district mission is essentially the pursuit of a compelling question that presses each member of the organization to be a reflective practitioner, a lifelong learner, a global thinker and committed to the success of each and every child.

How do we create learning communities for the greatest thinkers and most thoughtful people...for the world?

The Board is responsible for establishing educational goals which will guide both the Board and staff in working together toward the continuing improvement of the educational program. As a Board they have established district goals to:

- 1) Grow student achievement through the use of high leverage instructional strategies that raise rigor for all students while simultaneously closing achievement gaps.
- 2) Align systems of accountability, assessment, and evaluation to support the West Linn-Wilsonville vision of excellence.
- 3) Manage facilities and long range planning to optimize the student learning environment and the stewardship of assets.
- 4) Cultivate new and grow existing community partnerships in support of the district vision and values of excellence in education.
- 5) Recognize, discover, communicate, and celebrate the progress and accomplishments of our staff toward achieving the district vision of excellence in education.

District Management embraces these goals and has focused their efforts and resources to invest in programs that generate outcomes consistent with these goals. This budget is built around supporting programs to that end.

Even in these constrained budgetary times, the District has maintained a high standard of program offerings including Wellness and Music programs in every school, full-day kindergarten in every primary school, robust visual and performing arts programs, world-class facilities and library systems, STEM curriculum and enrichment opportunities.

West Linn - Wilsonville School District is one of the few in the state to have a Farm-to-School program, actively educating and engaging students in the ecological, nutritional and commercial aspects and benefits of organic farming and sustainable living practices. The Center for Research in Environmental Sciences & Technologies (CREST), another District program, is staffed by teachers who work alongside students in creating place-based and hands-on learning experiences centered on the environmental sciences and sustainability.

Budget Presentation

West Linn-Wilsonville School District is proud to publish and provide budget information to the Board of Directors and our community.

The goal is to present a balanced budget in a manner that provides a clear, accurate account of the District's educational programs and services for the 2013-14 fiscal year. The information contained in this budget document has been developed, in part, from a combination of District staff and community feedback.

We welcome the opportunity to discuss any financial information or to answer questions regarding the data presented in this report.

Budget Process

The process for developing the 2013-2014 budget began in the fall when District staff began analyzing our budget and considering strategies for maintaining our operating budget while dealing with the uncertainties of fluctuating funding levels.

Preliminary analysis continued and by mid-December, the picture for 2013-14 became clearer. Projections began surfacing for K-12 education funding supported by various pieces of legislation proposing ways to fund education in the 2013-15 biennium. The projections for the local option became available, and the costs for opening the new schools became a reality and informed our planning for the coming year. Following is the budget calendar that outlines the various meetings planned to inform the Board, budget committee and public citizens about the financial matters that make up the budget for the coming year:

2013-14 BUDGET DEVELOPMENT TIMELINE

As we began to move through these meetings in the spring of 2013, more information became available. Governor Kitzhaber and the Legislature offered their budget proposals for K-12 education, refined the role of Oregon Education Investment Board, clarified the elements of achievement compacts, and attempted to provide legislation that would provide improved funding levels for the next biennium in Oregon. Unique to this year was the State's use of PERS cost containment as a part of the financing mix for school funding.

We shared budget information with building and department leaders and asked each of them to share information with their staff, parents and community members. A list of proposed General Fund budget revenues and expenditures was prepared and shared with these groups in April and May. Modifications were made based on discussions with the Board, staff and patron feedback, additional research, and the outcome of our bond projects. Throughout the spring, meetings were held at every school involving staff members, parents, and community members. A "Budget Information" webpage was launched featuring a feedback module, and reference materials were developed. Ideas and suggestions were collected and reviewed –all with the express purpose of putting together a budget that could keep as many programs in place for kids as possible.

State Funding for K-12 Education

K-12 education is steadily receiving a smaller share of the state budget. In the 2003-05 biennium, K-12 schools received 45 percent of the state budget. In the 2011-13 biennium, K-12 funding has fallen to 39 percent. During that time, Oregon has moved from a state that funds education at a rate higher than the average state to one that is lower than average. Oregon finds itself ranked in the bottom half of the nation when it comes to per-pupil funding for education. However, with increased appropriations for education in the coming biennium, we are seeing a slight correction to this downward trend.

In the 1990s, Oregon voters approved a property tax limitation that shifted major responsibility for funding K-12 programs from local property taxes to Oregon's General Fund. The measures approved by the voters required the Oregon Legislature to replace these property taxes. As property taxes were reduced, the reliance on the State General Fund increased.

As one of only two states that does not have a sales tax, Oregon's primary revenue sources are the state income tax and lottery revenues. Therefore, the funding levels for K-12 education statewide are significantly affected by fluctuations in the economic climate. In addition, prior to 2007, Oregon's Kicker Law required the state to return any income tax collections in excess of two percent of projections to tax payers. This effectively kept the state from being able to "save" during the good times in anticipation of economic downturns. During the 2007 legislative session, a bill was passed which allowed the state to create a Rainy Day Fund—a first attempt to stabilize state funding.

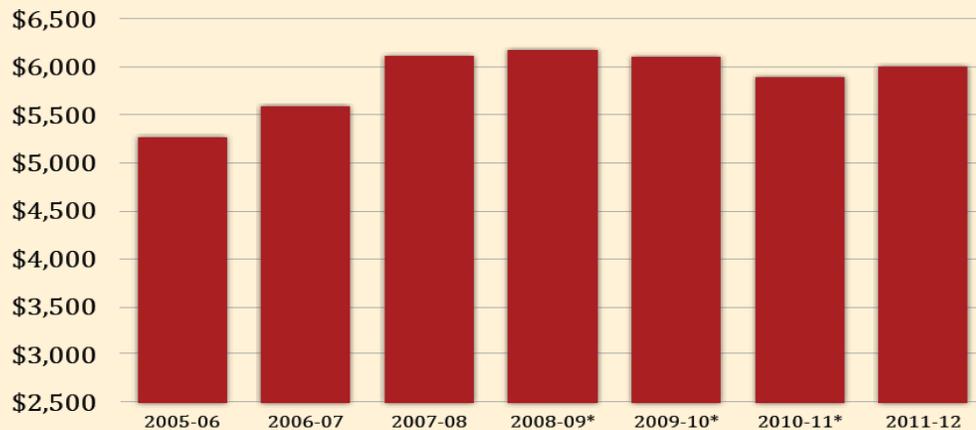

The unprecedented economic recession, which began during the second half of 2008, led to a reduction in state revenue—approximately \$166 million was taken from the statewide K-12 revenue allocation during the 2008-09 school year. Funding for the 2009-2011 biennium remained uncertain even as Oregon school districts were completing their annual budgets in June 2009. West Linn-Wilsonville School District built its 2009-10 budget based on a statewide biennial funding level of \$5.6 billion resulting in reductions of \$4,386,180. That translated into staffing cuts of 33 licensed positions and 18 classified positions.

The 2011-2013 biennium continued to be impacted by the recession that began in 2008. Statewide K-12 biennial funding is set at \$5.7 billion, or roughly the same level it was at during the 2009-2011 biennium.

Funding for the 2013-15 biennium is shaping up to look like \$6.55 billion of State Funding support supplemented with an additional amount of PERS relief of \$200 million that, when added together, should supply an equivalent of \$6.75 billion to go towards all P-20 schools in Oregon.

The State School Formula projects funding for each attending school in Oregon through a weighted distribution system. A historical review of the School Support Fund per ADMw (Average Daily Membership weighted) is shown in the chart below. Funding for the 2013-15 Biennium, if approved, will show a significant increase, up to \$6,500 per student.

Local Option Revenues

In May of 2000, the District's voters elected to further invest in their children's educations by imposing a "local option tax." This tax draws on the gap in values created when the property taxes are advancing faster than the county assessed values. This tax initially raised just under \$2 million in its first year. It grew steadily reaching a high of just over \$7.5 million in the 2008-09 school year. However, with the economic difficulties of 2008 and later, these funds have rapidly decreased. This decline is brought about due to the "compression" of the margin where assessed values are catching up with market values that are falling. Whether recoveries in the economy can affect significant recoveries in the local option tax remains to be seen. It has been noted, though, that the rate of decline shows signs of significant decrease in the 12-13 school year compared to the previous three years.

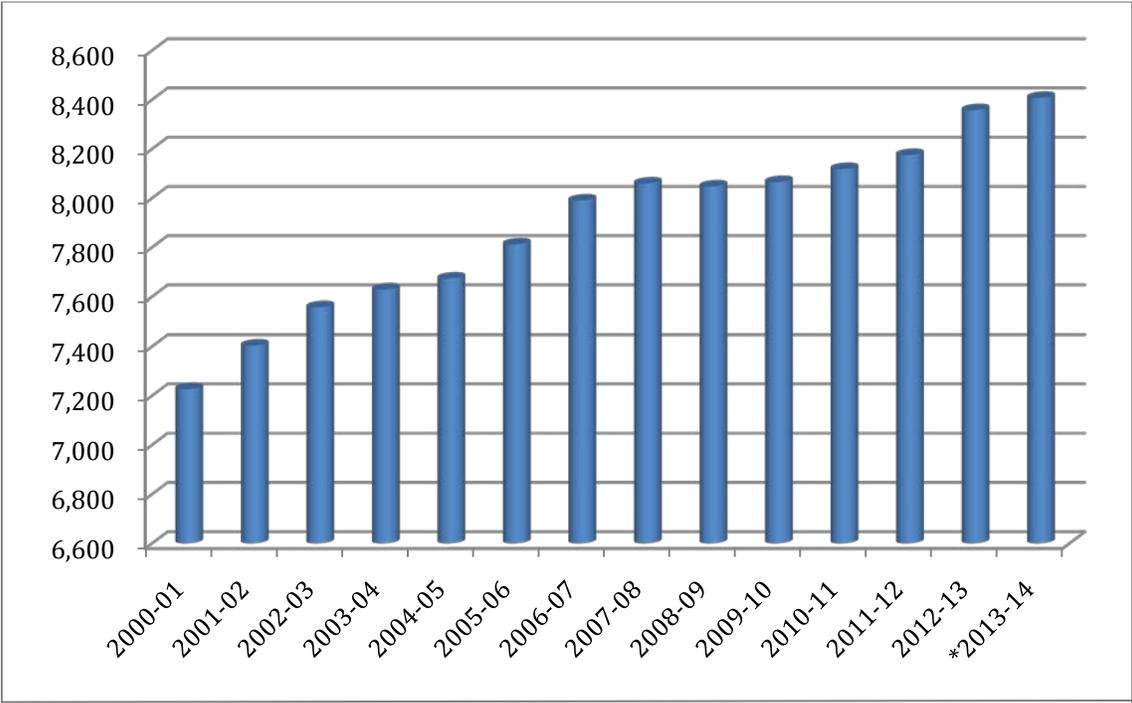

The Role of the Capital Bond

Bond revenues are not a part of the general fund budget. The most recent bond was passed in 2008. Along with the construction of Lowrie and Trillium Creek Primary Schools, this bond has allowed us to carry out many other projects, as well. Some of these projects are scheduled for completion after the two schools are finished to insure that the resources needed for finishing the schools was adequately supplied. These additional projects mean that the bond activity will proceed through the 2012-13 year and through the 2013-14 school year. As in the past, many capital projects serve to offset expenditures that would otherwise need to be accounted for in the general fund.

Student Enrollment

Student enrollments have grown in recent years. One only needs to look at the impressive expansion in our communities to see this. The economic downturn has had an affect on this trend and this budget is built taking a conservative position of “minimal growth” for the coming years’ student count.

Student Achievement

Student performance in West Linn-Wilsonville Schools has been consistently high, often leading the state and the nation for schools districts this size. Student performance at each level continues to improve on state measures of performance and ratings of outstanding and/or exceptional. Outside the usual measures of state performance, students in West Linn-Wilsonville achieve top standing in state, national and international competitions across a wide range of academic areas. Students earn honors in band, choir, and orchestral music, in the visual arts, robotics, mock trial, poetry and writing. Student performances demonstrate excellence in theater, speech, debate, athletics, science, engineering, and mathematics. West Linn-Wilsonville students are National Merit Scholars, AP Scholars and earn places in top tier universities, often with substantial scholarship support. West Linn-Wilsonville was the only two-high school district in Oregon named to the prestigious AP Honor Roll for increasing the number of students taking AP courses and at the same time increasing student performance on AP tests. Greater than 90% of district graduates attend college. A significant number of students begin their college career with credit earned through Advanced Placement and college level course work offered in our high schools.

The high quality academic performance is achieved because of the sustained investment in a Pre-K-12 program with rigorous academic experience and enriched learning opportunities for all. Our program demonstrates a relentless effort to increase the quality of learning through enriched experiences that elevate thinking and learning. These experiences create conditions for our students to develop a sense of purpose and an ethic of excellence. High quality performances prepare students to bring significant thinking to problems and challenges in the world. Throughout the K-12 experience, students develop disciplinary competence and the dispositions to passionately pursue their learning as they craft lives of worthy purpose. They develop a “growth mindset” toward learning, challenge, and problem-solving.

Recently Oregon has established measures/outcomes to align with its 40-40-20 goals designed to ensure that by 2025, 100 percent of Oregon students graduate from high school with 40 percent attaining a four-year degree and another 40 percent a two-year degree. We will be formally tracking and reporting:

- The percentage of students graduating from high school with four- year or five- year diplomas
- The percentage of students earning 9 college credits or more while in high school
- The percentage of graduating students enrolled in post-secondary educational programs
- The attendance and percentage of 9th grade students earning 6 credit or more
- The attendance of 6th grade students
- The percentage of 3rd grade students meeting proficiency standards on measures of reading and mathematics

The district will set targets in each of the areas above as a part of our achievement compacts with the Oregon Education Investment Board which was established as a part of the Governor’s education reform agenda.

In addition to these required state measures it is our intention to invest in programs and practices that increase:

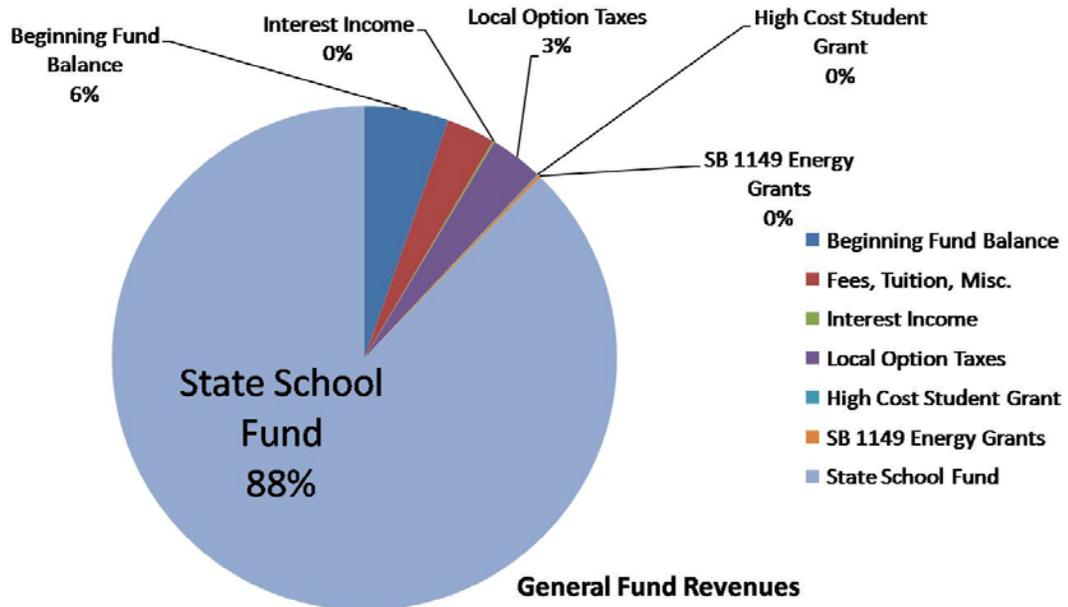

- The percentage of students enrolled in AP courses
- The percentage of students passing AP exams
- The percentage of 8th and 9th grade students meeting college readiness benchmarks on the ACT Explore Exam
- The percentage of students involved in academic activities, leadership activities, visual and performing arts, athletic, and other co-curricular activities
- The percentage of 6th grade students exceeding state proficiency levels in reading and mathematics
- The percentage of students demonstrating proficiency in writing at each grade level

2013-2014 Budget Summary

General Fund Revenues

School funding comes almost entirely from State supplied revenues, but are calculated to include amounts received by the District from local property taxes. When the State is doing well, schools tend to be funded better. When the economy struggles, so do schools.

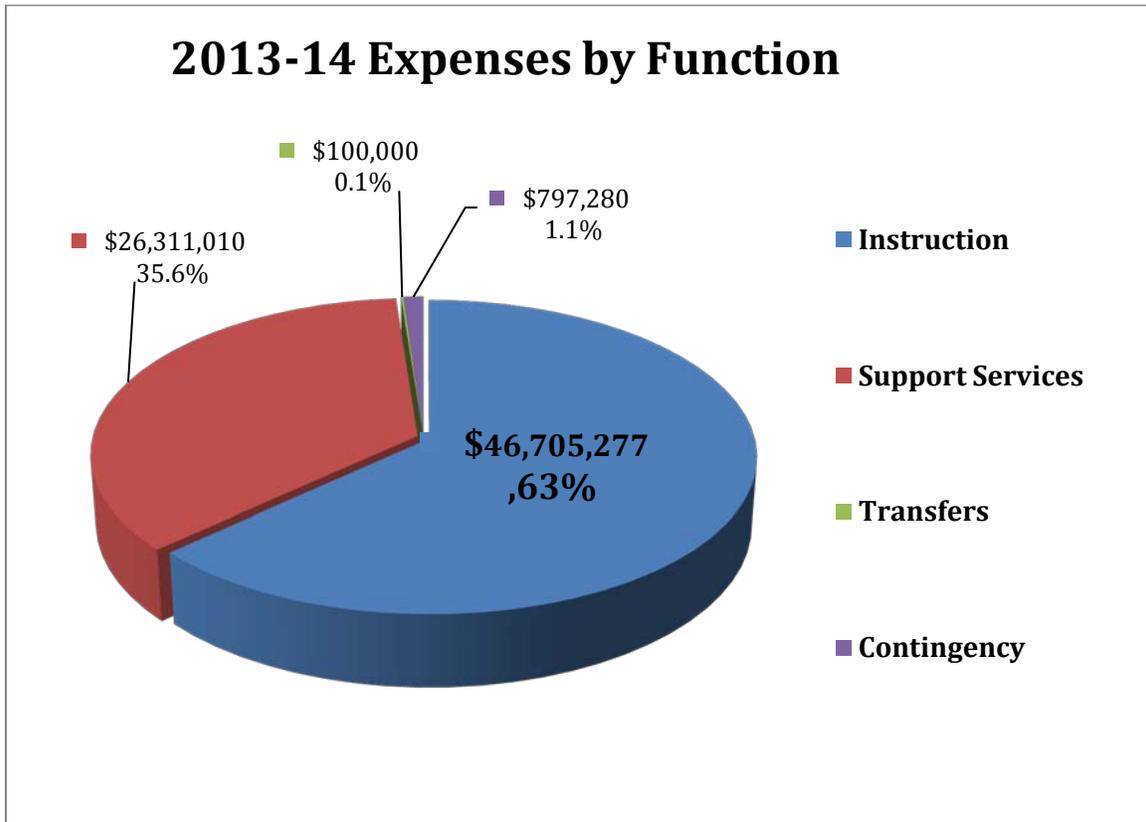

While the contribution of the West Linn-Wilsonville Education Foundation is not included in this budget we currently benefit from and are very grateful for their generous \$150,000 contribution in support of classroom teaching positions.

General Fund Expenditures

The majority of our spending is dedicated to people and personnel costs. Our teachers, classroom aides, custodians, cooks, principals and administrators all work together to bring the best educational experience possible to our students.

Licensed and classified staff are currently negotiating the terms and conditions for a new contract that will begin on July 1, 2013 if settled by then.

2013-2014 General Fund Budget at a Glance

Following are some of the significant facts and assumptions that came out of our budget analysis and guided our investment decisions in the proposed 2013-2014 Budget:

Beginning Fund Balance (Estimated)	\$	3,988,750
Revenues		
Fees, Tuition, misc.		2,300,581
Interest Income		92,345
Local Option Property Taxes		2,501,660
SB 1149 Energy Grant Funds		140,255
<i>State Formula Revenue (SSF)</i>		
State General Purpose Grant & Transportation		64,844,976
High-Cost Disability Grant		45,000
Total Revenues		69,924,817
Total Resources (Fund Balance & Revenues)		73,913,567
Expenditures		
Salaries		37,557,332
Benefits (+PERS increase less SB 822 savings)		24,104,365
Utilities, Services, Transportation		8,940,265
Supplies		1,906,392
Insurance & Fees		507,933
Transfers		100,000
Contingency		797,280
Total Expenditures		73,913,567
Ending Fund Balance		
(Ending Fund Balance w/ Unspent Contingency)	\$	797,280

Revenues and Expenditures

- State School Funding based on \$6.75 billion
- Budget assumes a \$300,000 shortfall in local option taxes from 12-13 actuals
- Budget assumes a minimally increased enrollment over the 2012-13 school year of 50 students
- Budget amounts in some cases show increases that were actually put into play during the 2013-14 year, but after the budget was approved. Thus, this budget will show an increase in some areas where operations have already been in place. An example of this would be adding 2 teachers to cover increased student counts in 2013-14.
- Building supplies, utilities and purchased services are increased 10-11%
- Assumes operations of 2 new schools independent of Bond support
- Budget assumes increases in personnel costs consistent with what has generally been granted in the past. Actual increases are dependent upon available resources and the outcome of negotiations currently in progress.
- Capital bond activity continues during 2013-14 in limited capacity as the 2008 Bond winds down
- Budget includes liability and comprehensive insurance increases of \$68,000
- Assumes the need for a \$100,000 transfer to the Food Service Fund

Impact on Current Service Levels

- No reduction in school days
- No reduction in staff
- Continue staffing costs of opening two new schools and increased student levels from 2012-13 without Bond support
- Continue increased classroom and evaluation system support for special needs students

Value Added and Future Oriented

- Deployment of robust technology and innovative instructional applications
- Enhanced and enriched world and dual language programming in grades K-5
- Additional Advanced Placement courses and offerings
- District web presence is enhanced/increased
- Benefits of improved accounting software & cost savings to be realized through ESD savings
- Availability of all day kindergarten in every school
- Offering preschool at 3 locations
- Access to quality professional development systems for improved instruction
- Libraries and teacher librarians continue to be a focal point of instruction
- University partners advance global and virtual learning

Board of Directors

West Linn – Wilsonville School District is governed by a Board of Directors comprised of five elected members serving four-year terms. Board members are community volunteers and do not receive compensation for their work. The Board elects a chairperson and a vice-chairperson from the five members. The Board has legal authority for all public schools in the West Linn-Wilsonville School District within the framework set by the Oregon Legislature and the State Board of Education. The Board establishes policy based on Oregon and federal laws governing schools. The Board acts to interpret the educational needs of the District then meets those needs with policies and facilities that motivate students and stimulate the learning process. The Board is also responsible for employing the Superintendent to administer the District.

The ongoing duties of the Board include allocating resources, formulating policy, and interacting with the community in support of the District mission. The Board of Directors supports the District’s efforts to achieve the vision by setting annual Board goals that align with key objectives and outcomes.

The Board of Directors meets in regularly scheduled meetings on the first Monday of each month at 7:00 p.m. Regular and special sessions, work sessions, and Budget Committee meetings are open to the public. Executive sessions are held as needed for specific purposes as provided by state law. Notices of all meetings are posted on our District website: <http://wlwv.schoolwires.net/domain/63>

Superintendent

Superintendent William Rhoades, Ed.D. was appointed by the Board to serve as the chief executive officer of the District. The Superintendent is a professional educator employed to advise the Board on all matters concerning management of the schools, as well as administering laws, regulations, and policies adopted by the Board.

As the leader for teaching and learning for West Linn-Wilsonville School District, the Superintendent is responsible for guiding the development of the curriculum and educational programs that address the needs of students, and providing leadership and advocacy for education. The Superintendent is accountable for the fiscal management of the District, guiding the direction of employees, and ensuring their ongoing professional development. As such, this budget represents the best thinking and planning of the management and employees of the District, as well as thoughts and input the Superintendent has gathered from board and community meetings.

Business Manager

Business Manager Doug Middlestetter is responsible to the Board and administration for all financial operations. He is grateful for the helpful input and processing leading up to publication of this budget provided by the District employees, Board, community members and the employees in the Business Department.

Budget Committee

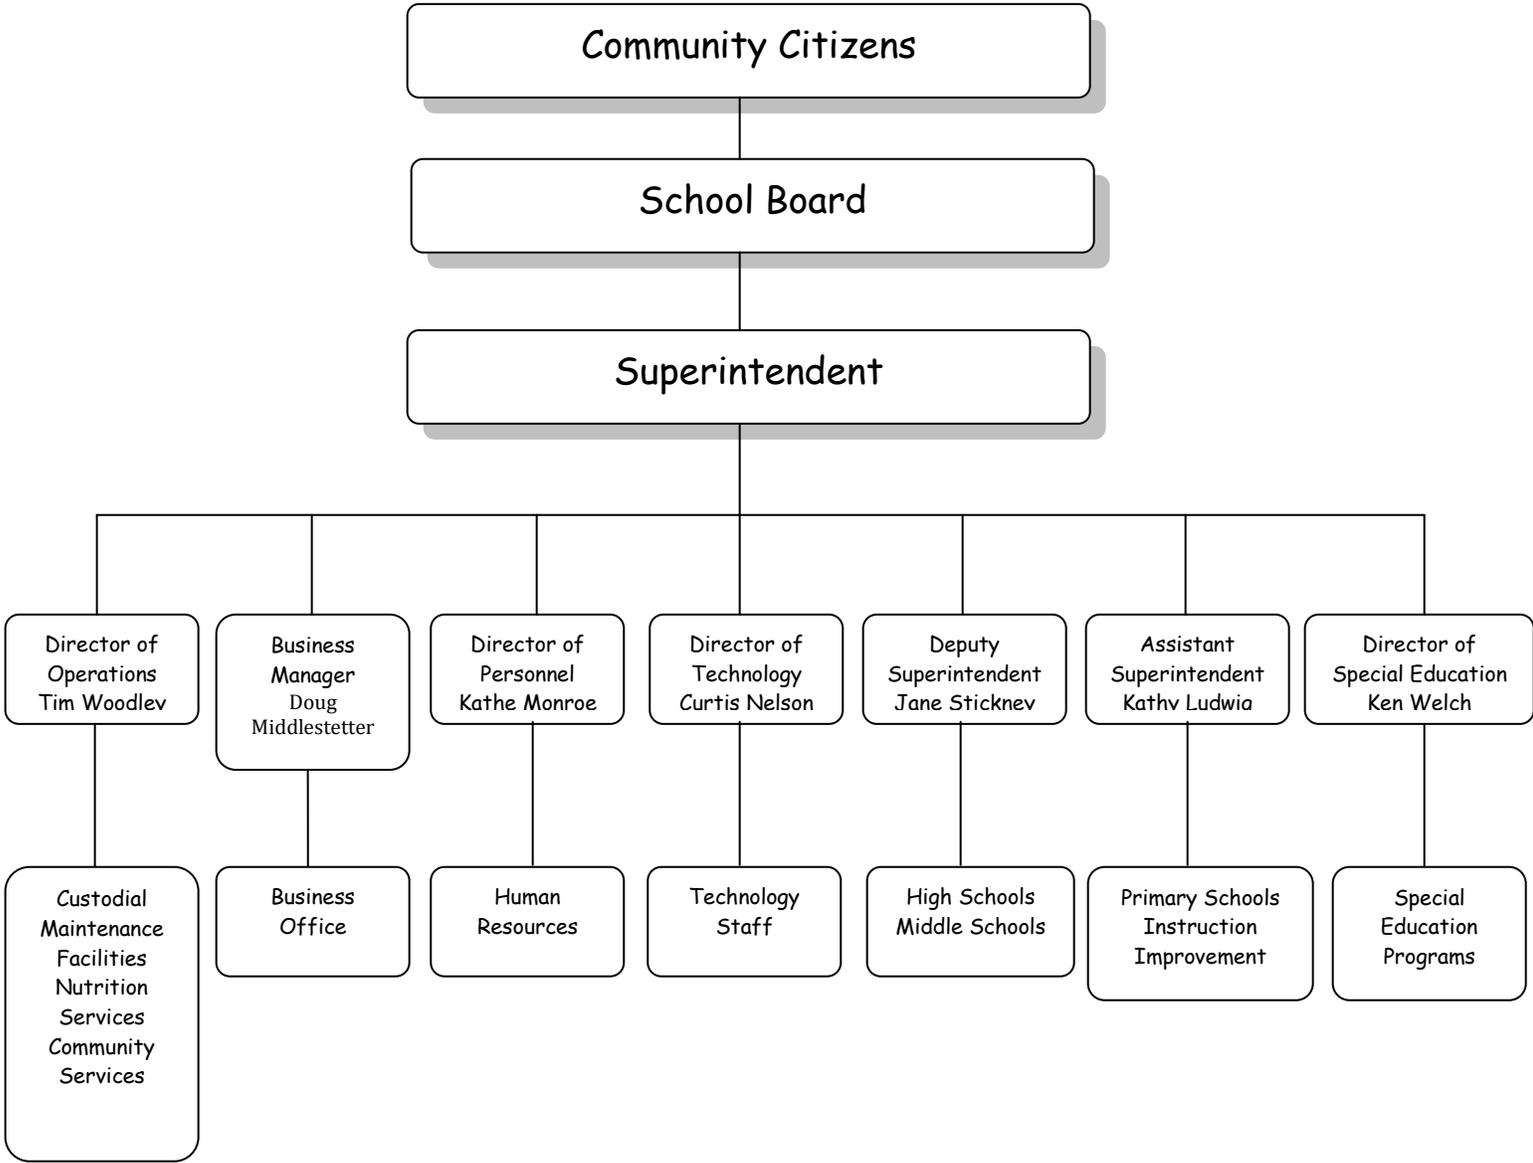

The West Linn-Wilsonville School District's Budget Committee is made up of the above five School Board members as well as the five community members listed below:

Trey Maust 503-655-3475 Term Expires: June 30, 2015	Kellie VavRosky 503-682-5944 Term Expires: June 30, 2013	Richard Truitt 503-582-9085 Term Expires: June 30, 2013	Gretchen Katko 503-655-6545 Term Expires: June 30, 2014	Rob Fernandez 503-625-7419 Term Expires: June 30, 2015
--	---	--	--	---

The appointive committee members are appointed for three-year terms. The terms are staggered so that, as near as practicable, one-third of the appointive members' terms end each year.

According to Oregon Budget Law, the budget committee shall hold one or more meetings to receive the budget message, to receive the budget document, and to provide members of the public with an opportunity to ask questions about and comment on the budget document. Those meetings occur in April through June of each year.

IV Funds Overview

Structure and Classification

The financial operations of the district are accounted for in the following funds:

General Fund

This fund accounts for all of the financial resources and expenditures of the district, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Fund.

Special Revenue Fund

This fund accounts for revenues and expenditures restricted for specific educational projects or programs. This fund consists of a number of self-balancing sub-funds as follows:

Federal Grants

Vocational Education – High School level program to promote vocational ed

Title IA/D – K-5 reading and math intervention at Boeckman Creek and Boones Ferry Primary Schools

IDEA – Funding for students with individual education plans (IEP's)

Title IIA – Teacher coaching and staff development

Youth Transition Program – Transitioning school to work for students with IEP's.

Title III – English language learner staff development and materials

Other Funding Sources

SOAR into Summer – Summer program for disadvantaged students (Willamette)

Disabled Child – Clackamas County ESD funding for students with IEP's.

Nutrition Service – Provide food service district-wide

Community Services – Building and grounds scheduling, rent collection, district mapping program, selected education programs benefiting K-12 students.

General Obligation Debt Service Fund

The General Obligation Debt Service Fund accounts for principal and interest payments to holders of district general obligation debt. The main revenue source for these payments is local taxes.

PERS Pension Obligation Debt Service Fund

The PERS Pension Bond fund was established on February 17, 2004 as part of a group effort by Oregon school districts to “refinance” and gain a more favorable outcome regarding employee pension obligations that PERS was accruing interest on in anticipation of paying out retirement dollars to past and present school district employees. The revenue source for this fund is and expense charged against district payrolls accumulated monthly towards semi-annual payments.

Capital Project Funds

2008 Capital Construction Bond

This fund was created to pay for construction project costs listed on the ballot title of the \$98,000,000 General Obligation Bond vote held November 4, 2008. It is primarily responsible for building two new primary schools, updating district technology, and making many needed infrastructure improvements. The primary schools were completed in the summer of 2012 and placed in service in August of that year. There are a number of smaller projects to be completed during 2013-14 at which time this bond will be completed.

Construction Excise Tax

This fee began January 1, 2008. Residential builders pay a one-time fee of \$1.00 per square foot while commercial builders pay \$.50 per square foot and are capped at \$25,000 per building. The funding is intended to pay for capital improvements to help offset the increased costs of education arising from the new square footage introduced into the district. The rates can go up annually by an amount specified by the State.

General Fund Revenue Discussion

State Funding Formula

The state funding formula consists of two separate grant amounts. The first is called the general purpose grant. This is an amount per weighted student that is allocated to each school district. This amount is adjusted up or down with each Oregon Department of Education revenue run. Factors that make up the component parts of the state formula are updated on a scheduled basis. At this point there are two fiscal years open and thus subject to adjustments. These three are 2012-13, and 2013-14. A final adjustment in May 2013 officially closed out the 2011-12 fiscal year.

The general purpose grant is connected with Senate Bill 100 which designates funding for public schools. The general purpose grant amount for 2013-14 is estimated to be \$62,149,976 for this district.

The second grant is tied to transportation. The district is reimbursed for 70% of eligible transportation costs incurred. Home-to-school and field trip transportation costs are reimbursed at 70% by the state. That amount is estimated to be \$2,695,000 for the 2013-14 fiscal year.

The state school formula is funded from a number of sources. If one source is less than expected another is then increased to balance out the total funding amount per weighted student. The funding sources associated with state formula revenue are as follows:

- Local property taxes assessed with the permanent rate assigned to the district at \$4.8684 per thousand assessed value
- State Common School Fund
- State General Fund Apportionment

Local Option Tax

Voters approved a local option tax on November 4, 2008 at \$1.50 per \$1,000 assessed value. The levy is applied to each taxable property in the district. Actual local option taxes incurred by property owners range from zero to \$1.50 per \$1,000 assessed value. The current local option tax authority continues through the 2014-15 fiscal year.

Local option tax revenues have continued their decline in 2011-12. This downward trend is expected to continue in 2013-14 –though declines are slowing down as compared to the past three years.

General Fund Expenditure Discussion

The labor contracts with both labor unions are in place for the duration of the 2012-13 school year, but expire on June 30, 2013. They currently are being negotiated, but have not been settled yet.

Oregon School Employees Association (OSEA)
West Linn Education Association (WLEA)

Other Funds Discussion

Special Revenue

These sub-funds have been presented to the budget committee for appropriation as a single fund. This provides a more efficient way to comply with local budget law. All sub-funds are maintained in their own self-balancing set of accounts. The focus of budgeting for these sub-funds is to capture the upper limit of revenue and expenditures for the 2013-14 fiscal year. As the year unfolds the grant amounts, participation level in Nutrition Services, Community Services program levels, etc. become known. It is anticipated that the 2013-14 budget will provide enough budget authority to spend the grant revenue realized.

General Obligation Debt

This budget is based on the school board imposing a tax of \$18,994,350 to meet general obligation bonded debt requirements in 2013-14. It is estimated that the 2013-14 debt tax rate will be \$3.06 per thousand assessed value. A debt rate of \$3.00 or less per thousand was targeted by the school board during their planning for the November 4, 2008 vote. However, increases to principal and interest payout

requirements, plus dropping land values have caused the per-thousand rate to creep up slightly.

Three Rivers Charter School

Three Rivers Charter School (TRCS) is a component unit of the West Linn-Wilsonville School District. As such, a portion of its financial information is recorded in the district's Comprehensive Annual Financial Report (CAFR). The current TRCS contract expires June 30, 2014. The contract calls for the district to report ADM to the state and then pass on 80% of the general purpose grant for 100 TRCS students to the school.

In addition to state funding, TRCS also receives a proportionate share of local option taxes received by the district. This amounted to \$37,876 in 2011-12 and \$32,881 in 2012-13. The contract also calls for the district to pass funding associated with the students on IEP's to TRCS. The total budget funding projected to pass through to TRCS during 2013-14 is \$613,576.

Special Education Discussion

Special Education costs are incurred in four different places.

The first is the General Fund. The funding for these expenditures comes from a special weighting in the state school fund formula where up to 11% of the average daily membership (ADM) of the district can be identified and funded.

The second place the district incurs special education expenses is the Disabled Child sub-fund located in the Special Revenue Fund. These monies are provided by the Clackamas County ESD for children with disabilities.

The third source of special education funding comes from the federal government in the form of the IDEA grant. In order to qualify for this money the district is required to "maintain effort". The most common way for the district to maintain effort is to meet or increase special education spending year over year in the General Fund.

The final spot for special education spending is another federal grant titled "Youth Transition Program". This small funding amount is dedicated to helping students with disabilities transition to the work place after high school.

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING FROM LAST YEAR**

Improved economic conditions in Oregon's economy makes it possible to carry forward an educational program budget for the 2013-14 school year that maintains staffing and program levels of the current 2012-13 school year. Also, with the projections for increased enrollment and a possible stabilization in the local option levy, the District may be able to add classroom teachers when actual school enrollment is finalized. This budget also accounts for some increases in utility and other operating costs and payroll costs that have been frozen for the current biennium.
