FROM THE PRINCIPAL

Dear Parents and Community Members,

How do we create learning communities for the greatest thinkers and most thoughtful people...for the world?

The West Linn-Wilsonville School District mission "question" expresses Wilsonville High School's dedication to outstanding student achievement. We use regularly scheduled assessments, State and national tests to measure student learning and identify significant avenues for school improvement.

The Oregon School Report Card provides additional information. Wilsonville's Overall State Rating of 4 indicates we meet targets for reading and math. However, as long as there is a higher score, we will strive for it! Wilsonville High School is committed to

remarkable annual learning growth and a diploma for all children. We are proud of our 89.2% graduation rate. We have strong performance in supporting subgroups, emerging bilingual children and those with disabilities.

Wilsonville students support each other in their success with a strong Wildcat culture.

Thank you,

Principal | Aaron Downs

OVERALL STATE RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall state rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. High schools are also rated on the overall graduation rate for the school and the graduation rates of underserved subgroups. Please be aware that this rating is based mainly on high-stakes testing and accordingly, represents a limited view of student performance. Other aspects of this report card are designed to put this rating in the proper context.

Level 1 = Falls into the bottom 5% of schools

Level 2 = Falls between 5% and 15% of schools

Level 3 = Falls between 15% and 44% of schools

Level 4 = Falls between 44% and 90% of schools

Level 5 = Falls into the top 10% of schools

Compared to high schools with similar student demographics in 2013-14, this school's rating is above average.

Below average = Falls into the bottom third of comparison schools

below average - Fails into the bottom third of companson schools

About average = Falls into the middle third of comparison schools

Above average = Falls into the top third of comparison schools
